Cradlepoint AP22

Wi-Fi Access Point that enables easy-to-install wireless connectivity within branch office locations with Cradlepoint routers

**Wi-Fi:
802.11ac (Wi-Fi 5)**

**LAN Connectivity:
GbE**

**NetCloud Solution:
Branch**

AP22 Wi-Fi Access Points are designed to work with PoE-enabled AER2200 Series, E3000 Series, and CR4250 routers to extend Wi-Fi coverage within small- and medium-size branch offices or store sites. AP22 Access Points provide a full security suite for immediate and confident access. Also, NetCloud enables remote cloud management for both routers and access points from a single pane of glass.

These purpose-built endpoints are sold as part of a NetCloud Package that includes a subscription to the NetCloud Service, continuous software feature enhancements, 24×7 support, on-demand training, and limited lifetime warranty.

Key Features:

— Rapidly deploy fast, affordable 802.11ac Wave 2 in every branch

— Enables a complete wireless (Wi-Fi and cellular) and software-defined solution for resilient and modern branch networking

— Full security feature suite for protected connections

— PCI-compliant Wi-Fi solution for mobile POS terminals

— Manage both routers and access points with easy-to-use, single-pane-of-glass, cloud management

Hardware Specs

Category	Branch
Cloud Management	Yes
Subscription Terms	1, 3 & 5 years
5G Ready	No
Form Factor	Metal & Plastic
Ethernet Ports	1 GigE (LAN only)
USB Ports	1
Serial Ports	0
Regions	North America, Europe/Middle East/Africa, Asia-Pacific
Wi-Fi	Dual-band, dual-concurrent; 802.11ac Wave 2 (Wi-Fi 5)
PoE	Uses PoE
Operating Temperature	-10° C to 50° C (14° F to 122° F)

NetCloud Comparison for Branch

Cradlepoint AP22 Access Point is part of a NetCloud Branch Access Essentials Package, an all-inclusive networking service comprised of support, hardware, and software services.

— Business intelligence and remote cloud management

— Purpose-built hardware

— 24×7 enterprise support and limited lifetime warranty
